EVOLUTION  
EFFECT

### The Evolution of Timeless

Inspirado en la evolución misma, este nuevo acabado cerámico va más allá de lo estático, creando una textura dinámica que fluye sin interrupciones por toda la superficie.

Inspired by evolution itself, this new ceramic finish goes beyond the static, creating a dynamic texture that flows seamlessly across the surface.

Inspirée par l'évolution elle-même, cette nouvelle finition céramique va au-delà de la statique, créant une texture dynamique qui s'étend de manière fluide sur la surface.

Así como la vida y el mundo evolucionan en todos sus aspectos, "Evolution" redefine la cerámica, narrando una historia visual en cada rincón y rindiendo homenaje a la eterna marcha del cambio.

Just as life and the world evolve in all its aspects, "Evolution" redefines ceramics, telling a visual story in every corner and paying homage to the eternal march of change.

Tout comme la vie et le monde évoluent dans tous leurs aspects, "Evolution" redéfinit la céramique, en racontant une histoire visuelle dans chaque coin et en rendant hommage à la marche éternelle du changement.

El cemento ha transformado el mundo en el que vivimos. Los arquitectos contemporáneos lo han incorporado como parte integral de sus diseños, pues la capacidad de jugar con las formas y las texturas de éste es infinita, así como su particular belleza. Belleza transferida a la cerámica de nuestros diseños de estilo cemento capaz de adaptarse a todo tipo de proyectos o estancias.

La colección Terra, reinterpreta la esencia de la tierra. Sus pigmentos naturales y su superficie estucada nos recuerdan a la cerámica artesana.

Un regreso a las raíces que se traduce en 6 elegantes colores que representan un estilo de vida natural y nos hace recuperar ese vínculo con la naturaleza.

Su gama cromática se desarrolla a partir del estudio de las tendencias más actuales. Se compone de una parte cálida con tonos tierra y marrones y se equilibra y completa con una gama más fría pero no menos natural que incluye colores empolvados como el salvia y el azul.

Esta colección se completa con el relieve VENTO, un relieve capaz de jugar con las sombras, produciendo un efecto de profundidad arquitectónica gracias a sus cavidades con sutiles tonos naturales y los decorados AQUA, FUOCO y ARIA que como si de una acuarela se tratase, fluye libremente creando escenografías que nos muestran la integración perfecta del arte y la cerámica.

The Terra collection recreates the essence of the earth. Its natural hue and its authentic surface remind us of handcrafted ceramics.

A return to the roots that translates into 6 elegant colours that represent a natural lifestyle that takes us back to our link with nature.

Its multicoloured range is developed from the study of the most current trends. The range is composed of warm earthy tones, browns and beige that are balanced and complimented with a cooler palette that is no less natural and includes soft tones of sage and blue.

This collection is completed with the VENTO relief, a relief that plays with shadows, producing an effect of architectural depth thanks to its multi layered cavities with subtle natural tones. The three colours AQUA, FUOCO and ARIA decorations that, as if it were a watercolor, flow freely creating masterpieces that show us the perfect integration of art and ceramics, what makes this collection unique and exceptional.

La collection Terra réinterprète l'essence de la terre.

Ses pigments naturels et sa surface stuquée rappellent les céramiques artisanales.

Un retour aux sources qui se traduit par 6 couleurs élégantes qui représentent un mode de vie naturel et nous ramène à ce lien avec la nature.

Sa gamme chromatique est développée à partir de l'étude des tendances les plus actuelles. Elle est composée d'une partie chaude avec des tons terreux et bruns, équilibrée et complétée par une gamme plus froide mais non moins naturelle qui comprend des couleurs poudrées comme la sauge et le bleu.

Cette collection se complète par le relief VENTO, un relief capable de jouer avec les ombres, produisant un effet de profondeur architecturale grâce à ses cavités avec des subtils tons naturels et par les décors AQUA, FUOCO et ARIA qui, comme s'il s'agissait d'aquarelles, s'écoulent librement en créant des scénographies qui nous montrent la parfaite intégration de l'art et de la céramique.

La colección Doge se inspira en los clásicos suelos venecianos reinterpretados en clave moderna.

En el clásico suelo veneciano los fragmentos compuestos por piedras y áridos mármoles cubren toda la superficie, sin embargo, en Doge se dibuja un movimiento más delicado y sutil, creándose unas maravillosas vetas que conviertan cada pieza de la colección en una obra única.
